Yardwork

AI-provider training policies by product

Public defaults and exceptions; check the actual agreement and settings. Checked 14 October 2026.

Product / path	Training default	Retention or exception to check
OpenAI business (Business, Enterprise, Edu)	No model improvement by default	Separate sharing agreement; response feedback alone does not permit conversation training
OpenAI API	No training unless explicitly opted in	Default abuse logs up to 30 days, with exceptions; stored application state is separate
OpenAI individual (Free, Plus, Pro)	Content may be used; opt out in data controls	Feedback can include the related conversation after opt-out
Anthropic commercial	No training by default	Feedback may train and be retained up to 5 years; API and saved-chat retention differ
Anthropic consumer (Free, Pro, Max)	Permission-based, with safety-review/feedback exceptions	Training-pipeline retention up to 5 years when enabled
Mistral Team (listed as Vibe Teams)	Training until the organization opts out	Admin disables training; feedback and Labs/Preview exceptions remain
Mistral Enterprise	Opted out by default	Admin-managed opt-in; do not extend this to every Mistral product
Google Gemini Apps (consumer)	Keep Activity affects model improvement	Default activity auto-delete 18 months; reviewed material retained up to 3 years
Foundry Models sold by Azure	No foundation-model training without permission	Check the deployment type and processing region
Microsoft 365 commercial Copilot	No foundation-model training on prompts/responses	Feedback not used for foundation-model training; check EU-boundary exclusions and routing
AWS Bedrock	Model providers cannot access prompts/completions	Check the selected feature's storage and AWS terms separately
